## Architectural Technologist - Leeds

We are Corstorphine & Wright, an award-winning, AJ100 architectural practice with design Studios across the UK. We are a dedicated team of 200+ enthusiastic individuals that care about creating places that foster human connection while adding commercial, civic, environmental, and social value.

We have a fantastic pipeline of projects as we head into 2022 and therefore our Leeds Studio is expanding and looking for an experienced Architectural Technologist to join our dynamic and experienced team. You will be responsible for supporting projects through all RIBA work stages from inception to completion in a range of sectors for a variety of clients. If you are looking to develop your career in a friendly, collaborative and creative environment with a business committed to its people this is the role for you.

As an Architectural Technologist you will have had a good exposure as part of teams working on multiple large-scale projects and meeting time critical deadlines. We want to hear from you if you have the skills and qualifications listed below:

- HNC/HND in a related discipline or can demonstrate significant relevant experience.
- Membership of CIAT or working towards chartered status.
- Proficiency with Revit, AutoCAD, and an understanding of BIM level 2 Protocols.
- Good knowledge of UK building regulations.
- Previous experience with NBS specifications writing.
- Previous exposure on data management systems.
- Ability to manage workload effectively, make clear decisions and meet tight deadlines.
- Effective team player that embraces collaboration.
- Evidence of broad spectrum of liaison with clients, contractors, and third parties.

Maintaining a talented and successful team matters to us! Working together with others to share resources and information across the business, seek continuous improvement to develop individual capability and that of the team and being self-motivated and reliable are traits that are highly desirable for any of our roles.

### **What you will get in return:**

Our people are at the heart of what we do. We offer a competitive salary and benefits package that promotes a work-life balance and supports your professional development needs. Life assurance, bonus scheme, Cycle to work scheme, Employee Assistance Program, hybrid working opportunities, regular social activities plus more are among some of the benefits on offer to our Corstorphine & Wright colleagues. Our Stourbridge studio is conveniently located minutes away from public transport.

Corstorphine & Wright is an equal opportunity employer. We celebrate and support diversity and are committed to creating and maintaining an inclusive environment throughout the employee lifecycle.
