

Corstorphine & Wright

Architectural Technologist - Darlington

We are Corstorphine & Wright, an award-winning, AJ100 architectural practice with studios across the UK. We are a dedicated team of 200+ enthusiastic individuals that care about creating places that foster human connection while adding commercial, civic, environmental, and social value.

Our Darlington Studio is expanding and looking for a talented Architectural Technologist to join our close-knit team! You will be working as part of the team and providing technical services through all RIBA stages by using BIM technologies and 3D modelling. Also, as our Darlington studio plays a key role in driving the ESG (Environmental Social Governance) and “digital working” agenda across Corstorphine & Wright, you will have the opportunity to be involved in these exciting areas too, helping to shape Corstorphine & Wright’s future.

Key Responsibilities

- Provide high quality technical drawings and supporting technical information in compliance with Corstorphine & Wright’s Quality Management procedures.
- Provide Technical Support to Project Team.
- Maintain liaison with project team consultants to ensure progress of projects in accordance with planned programmes.
- Assistance with preparation of detailed design proposals.
- Assistance with preparation of project tender information, including drawings, schedules and specifications.
- Assist with the preparation of Planning Applications and the subsequent discharge of conditional approvals.
- Assist with Building regulation submissions, including liaison with other relevant Statutory or Regulatory Authorities.
- Assist with the provision of necessary technical production information to the main contractor during operations on site.
- Attend regular team and technical studio meetings and site meetings (if required).
- Coordination of relevant project and post contract meetings and subsequent preparation and distribution of relevant reports.

We want to hear from you if you have the skills and qualifications listed below:

- Proven record of accomplishment of delivering multiple projects and “job running” skills.
- Proven practical experience in BIM techniques, experienced in Revit and AutoCAD.
- HNC/HND in a related discipline or can demonstrate significant relevant experience.
- Membership of CIAT or working towards chartered status.
- Good knowledge of UK building regulations.
- Previous experience with NBS specifications writing.
- Ability to manage workload effectively, make clear decisions and meet tight deadlines.
- Effective team player that embraces collaboration.
- Evidence of broad spectrum of liaison with clients, contractors, and third parties.

Corstorphine & Wright

Maintaining a talented and successful team matters to us! Working together with others to share resources and information across the business, seek continuous improvement to develop individual capability and that of the team and being self-motivated and reliable are traits that are highly desirable for any of our roles.

What you will get in return:

Our people are at the heart of what we do. We offer a competitive salary and benefits package that promotes a work-life balance and supports your professional development needs. Life assurance, bonus scheme, Cycle to work scheme, Employee Assistance Program, hybrid working opportunities, regular social activities plus more are among some of the benefits on offer to our Corstorphine & Wright colleagues.

Corstorphine & Wright is an equal opportunity employer. We celebrate and support diversity and we are committed to creating and maintaining an inclusive environment throughout the employee lifecycle.
